

Press Release

Microcom Becomes ADT Authorized Retailer, Adds Home Security To Its List of Services

ANCHORAGE, AK Microcom is proud to announce that it has officially become an ADT Authorized Dealer, adding home security systems to the growing list of products and services the company is able to provide. With this development, Microcom offers increased safety and peace of mind to its customers in addition to the exceptional satellite TV and internet services it continues to provide. ADT, with over 140 years of experience in the security industry, is a welcome addition to Microcom's platform of services as the company continues to bring innovative solutions to its customers in Alaska, Hawaii, Idaho, and Colorado.

"This is a great time for Microcom and our customers," said Tyler Baker, Microcom's Chief of ADT Sales. "ADT's dedication to the security and satisfaction of their customers is perfectly in line with Microcom's business philosophy and standards of excellence. We're excited to bring their services to our community."

With their soft launch of ADT in the Anchorage/Mat-Su area, Microcom will be offering exciting sales promotions for early adoption customers. For a limited time, new customers will receive the Essentials security package free of charge, only paying the one-time \$99 installation fee. Customers who bundle their ADT purchase with another satellite service will also receive a \$100 pre-paid gift card.

To learn more about home security and satellite opportunities from Microcom, contact Tyler Baker at (907) 264-0032 or visit their Anchorage showroom at 126 W. International Airport Rd.

ABOUT MICROCOM

Microcom has been leading the way in satellite communications in Alaska, Hawaii, and now in Idaho and Colorado for more than 30 years. Their years of dedication to customer service and competition have allowed all multi-channel video consumers in these states to see a benefit from their work. Microcom is proud of its innovative solutions to their customers' communications needs, which have resulted in many "firsts" in the satellite industry. Call on Microcom to solve your satellite communication needs.
